Grant and Funding Opportunities

Introduction

The Saskatchewan Parks and Recreation Association (SPRA) is a non-profit volunteer organization whose purpose is to promote, develop and facilitate parks and recreation opportunities throughout the province. We are recognized as the provincial umbrella organization representing parks and recreation in Saskatchewan and manage the Recreation Section of the Saskatchewan Lotteries Trust Fund for Sport, Culture and Recreation.

SPRA provides a provincial voice allowing its members to promote and facilitate parks, recreation and leisure opportunities throughout Saskatchewan. SPRA is committed to representing not only its members but also the citizens of the province as a whole.

Looking for Funding? We can help!

The Saskatchewan Parks and Recreation Association is aware that our sector relies heavily on grant opportunities to deliver important programs and services across the province. It is because of our sectors reliance on grants that SPRA has compiled over 180 unique opportunities specific to sport, culture and recreation.

The SPRA Grant Opportunities Guide is a great starting point for both professionals and volunteers working within our sector looking for grants to support projects, programs or initiatives. SPRA recognizes that new grant opportunities arise from time to time and some of these opportunities are time sensitive. SPRA's Communications, Information and Research Division has access to exclusive funding directories which we can help identify the latest grant opportunities. For more information, contact us at 1-800-563-2555 or (306) 780-9439, by email at resourcecentre@spra.sk.ca, or visit us online at www.spra.sk.ca/resources-and-advocacy/.

SPRA also offers a number of grant opportunities to our membership. To find out more about the grants we offer, please visit www.spra.sk.ca/funding.

Grant Opportunities

Opportunities presented in this resource are accurate as of the print date. SPRA's intention is to share funding opportunities that are relevant to the sector, and as such, opportunities referencing specific companies, foundations or organizations should not be viewed as an endorsement.

Grant Writing Tips

Do Your Homework

Spend time researching the funding organization to identify if your initiative or program aligns with their objectives. Read the grant guidelines to determine if the opportunity is a good fit. If you have any questions, contact the organization directly. In the end, you will be saving both your time and theirs.

Less is Sometimes More

Be clear and concise as you craft your proposal or grant application. Padding your application with extra text or unnecessary supplements such as flyers, videos or books may only distract funders from your ask.

Big or Small, Apply for Them All

Don't limit your search to the "big ticket" grants – The best 'fit' and least competition for dollars may be through a local community foundation.

Be Specific

Funders want to know why your program/initiative is a good investment. Outline exactly what they are going to get for their money; starting with a strong, credible description of the project, with its need and outcomes clearly identified.

Include a Detailed Budget

Outline how you intend on utilizing the money; make a list of everything you said you were going to do that has financial implications, then assign a dollar value to each item.

Create an Evaluation Plan

What tools will you use to collect data or information that shows whether your project has met its objectives? Surveys, pre or post questionnaires, focus groups, testimonials and videos are only some of the ways you can measure your impact.

Follow the Application Guidelines

Use the guidelines as an outline and a checklist to ensure your application includes all of the required information.

Grow Your Community

GROW Your Community is a grant, developed by the Southeast Connection Sport, Culture & Recreation District, aimed at improving the health and wellbeing of people of south east Saskatchewan through participation in and access to sport, culture and recreation. We allocate seed money to help cover the deficit of programs and initiatives that meet at least one of our grant program streams.
