Training Assistance Program

1. Introduction

The Saskatchewan Parks and Recreation Association (SPRA) is dedicated to increasing active play and youth leadership opportunities throughout the province of Saskatchewan via education, promotion and coordination of resources.

The Take the Lead!® Training Assistance Program is financially supported through the 2010 Saskatchewan Legacy Fund. Please note that the availability of the Take the Lead!® Training Assistance Program is not guaranteed for future years.

It is important that programs funded by the Training Assistance Program must adhere to the restrictions, guidelines and protocols the Provincial Government has applied on public gatherings and programming. Your initiative must also follow public health recommendations set in place by the Saskatchewan Health Authority (SHA).

2. Purpose

The purpose of the Training Assistance Program is to support schools and community organizations in the province, who are interested in implementing Take the Lead!® in order to:

- Increase physical activity opportunities for youth.
- Reduce instances of negative behaviours in youth during play time.
- Increase youth leadership by providing opportunities for youth to take responsibility for planning and implementing play activities for their peers.

3. Background

Take the Lead!® is a program focused on leadership skill development and increased physical activity in youth aged 11-14. The purpose of Take the Lead!® is to train and mentor young people so they can lead active play opportunities throughout the day (i.e. at noon hour, recess time and after-school time), with a positive behaviour and attitude. Youth aged 11-14 are taught leadership skills and games. They utilize this knowledge to provide active and safe play opportunities for their peers. Community or school volunteers are trained as Leadership Coaches and mentor the youth through the planning and implementation process. **Leadership Coaches must have attended or will attend Take the Lead!® Leadership Coach training and be willing to spend time assisting youth with the program throughout the year.**

Take the Lead!® Outcomes:

- Youth leaders demonstrate leadership qualities and self-confidence.
 - Youth are physically active for a minimum of 30 minutes per day in the school environment, to help achieve the goal of 60-90 minutes of physical activity per day.
 - There are safe active play areas for youth.
 - Increased time dedicated to active, fun play during school recess, noon hour and after school.
 - Strengthened capacity of schools and communities to support physical activities for youth.
