

Website Anti-Spam Information and Consent Provisions

The Saskatchewan Parks and Recreation Association (hereby referred to as the “Organization”) is committed to the goal of ensuring that anyone who receives communication from us does not receive spam.

We only send commercial electronic messages (CEMs) in compliance with our Anti-Spam Policy which has been developed in accordance with Canada’s Anti-Spam Legislation (“CASL”).

What is a Commercial Electronic Message (CEM) and what is Spam?

A CEM is an electronic message (e.g., e-mail, text) that encourages participation in a commercial activity.

Spam, on the other hand, is unsolicited, unwanted electronic messages, also known as ‘junk’ e-mail or text messages that may be annoying, damaging, fraudulent or misleading. A CEM under CASL is broader than spam.

When Does the Organization Send Commercial Electronic Messages?

The Organization is committed to respecting our members, volunteers, clients, partners and employees right to be spam-free and strives to ensure that every message we send provides relevant information to meet your needs.

To comply with CASL, the Organization requires your consent to send you many types of messages electronically, including:

- e-mail correspondence;
- newsletters;
- invitations to events;
- registration for training, conferences
- informational material;
- programming updates; and
- industry updates.

We realize that your preferences may change. In every electronic message, we will include a mechanism for you to unsubscribe. Additionally, you may change your subscription options at any time.

The following information can still be sent electronically without your consent:

- a response to a request from you.
- information about your account or relationship with us;
- information about the goods, services or programs you have purchased from us;
- if you have provided your e-mail address to us, or have published your e-mail address, and the content we are sending you is relevant to your business role;
- if a third party who you have an existing relationship with has referred us to you;
- if you have an existing business relationship with the Organization;
- if you have an existing non-business relationship with the Organization;
- the Organization representative sending you the message has a personal or family relationship with you; or
- you are receiving the message in order for the Organization to fulfill a legal obligation or enforce a pending or existing legal right.

How Does the Organization Protect You From Receiving Spam?

Our employees have received training and are instructed to follow our CASL Compliance Policy when sending CEMs. Our IT platforms support our efforts to comply with this policy.

The Organization does not knowingly send spam and does not wish to send you material you do not want to receive. Accordingly, you can unsubscribe from receiving any messages you do not want to receive at any time. The Organization does not sell, exchange, distribute or post private member information without your consent.

What if I No Longer Want to Receive Messages From the Organization?

The Organization's CEMs provide you with the ability to unsubscribe or opt out of receiving our CEMs. You can also unsubscribe or change your subscription preferences on this website. When you unsubscribe using the link provided in our CEMs, your request will be processed as soon as possible, and no later than 10 days after you send the request. There are only limited contexts in which we cannot stop sending you certain messages, such as when we must communicate with you to enforce legal rights or respond to your requests, etc.

I think I received a CEM from the Organization that seems to be spam

In the unlikely event that you receive any messages from the Organization that may be considered spam, please contact us and the matter will be investigated. All the Organization's staff are aware of this Anti-Spam Policy, are appropriately trained, and are required to ensure that CEMs receive your consent or prior approval from the Organization's CASL Officer before being sent to any of our lists.

Changes to This Anti-Spam Policy

The Organization may amend this policy at any time by publishing a new version of it on this website.

Contact Us

We are committed to ensuring that you do not receive unwanted e-mails from our servers. Should you have any questions about the Organization's spam management strategies, please contact us at casl@spra.sk.ca.
